Academic experience

Despite the fact that the level is lower, I appreciated the great variety of courses that you have the opportunity to access, very special things especially if you are interested in the art and culture of the north. For example, I had the opportunity to participate in a workshop for the design and construction of an Ice Hotel.
The teaching method is much more independent than ours and the professors leave you much more freedom to experiment and develop your ideas without intervening too much, on the one hand I really appreciated this aspect, on the other hand I felt the lack of constructive criticism that help you take the project to a higher level.

Personal experience

I couldn't have asked for anything better!!! Rovaniemi is a small town surrounded by nature, you can only move around by bike, even at -25 degrees, because the means are not very efficient, but you soon get used to it. You have the opportunity to live unique experiences: ice swimming, ice fishing, long walks in the snow, perennial oxen in the winter months, midnight sun in spring, free reindeer along the road, sled rides with huskies and much more.
There is no lack of fun, also because the Erasmus community is very active and united. Honestly, it was one of the most beautiful and extreme experiences of my life.
