Willkommen | Welcome | Benvenuti | Ysa gwdihw

Friday, 6. November 2020, 13.30
Final Preparation | Opening Event

We'll all meet at the Museum Angewandte Kunst (MAK) Frankfurt, where we will receive the keys to our studios. Please make sure to bring a mask on time, if you want, you can also be there earlier!

Friday, 6. November, 18.30 – OpenEnd
Opening Event

18.30 Doors Open

19.15 Welcome
Prof. Matthias Wagner K, Director of the Museum Angewandte Kunst

19.20 The Frankfurt Kitchen 1926
Prof. Dr. Klaus Klemp | lemo foundation

19.30 The New Frankfurt Kitchen 2020
Markus Ortkrass | Design Director Bosch

19.40 Welcoming Remarks
Prof. Dr. Mathias Deutsch | Vice-President Frankfurt University of Applied Sciences

19.50 New Food | Short Film
Prof. Veronika Aequilla
Professorin at Mainz University of Design

20.00 Welcoming Remarks
Prof. Dr. Mic. Harald Tepper | Dean of IDE, Darmstadt University of Technology (TU Darft)

20.10 Welcoming Remarks
Prof. Dr. Hasan Mandal | President, Frankfurt Technical University

20.20 The Four Pillars of the Exhibition
Economy | Society | Ecology | Culture
Students from the three Universities

20.40 Exhibition Opening
Sven Wittig | Senior Lead Product Designer Bruun for the Tangler Team

...After the speeches, which will be around 20.45, we will accompany the guests to the exhibition area and be there for questions. Afterwards, there is time outline for a guided tour!

The buffet will open at the same time. We have put together the dishes in an effective combination. Enjoy yourselves – The Tri:angular team wishes you all the best and much success!

Saturday, 7. November, 18.00 – 20.30
Dinner @ Ebbelwoi Lieser | Frankfurt

We're meeting for dinner at "Ebbelwoi Lieser" (Textorstraße 32, 60594 Frankfurt) at 18.00 sharp. Very important: Very important: WE HAVE TO BE PUNCTUAL!!! PLEASE BRING ENOUGH CHANGE AND YOUR MASKS!!!

Located in Frankfurt's historic Alt-Sachsenhausen district, Ebbelwoi Lieser is a traditional, authentic Hessian tavern known for its lively, communal atmosphere and its delicious regional cuisine.

Guests all shoulder to shoulder along long wooden tables, enjoying dishes such as "Handkäs mit Musik" (a pungent cheese served with savory onion dressing) and "Grüne Soße" (a herb sauce served with boiled eggs and potatoes).

Handkäs mit Musik is a pungent cold regional specialty cheese topped with diced raw onions, vinegar, and caraway seeds.

Savory Swiss: Generous portions of freshly fried schnitzel, often served with French fries and salad, are sizable, and sausages.

The cozy, rustic brick-walled interior and bustling, cheerful energy, Ebbelwoi Lieser offers one of the most genuine Frankfurt dining experiences in the city.

...After that, all the best – and those who are young enough, will go to the "Schwarze Katz" (Textorstraße 32), where we also have the keys for it. But don't get lost – tomorrow is 'Meet the Makers' at 10 and there's a lot to do!

Sunday, 8. November, 12.00 – 14.00
„Meet The Makers" | Museum

We'll meet again at 11.30 at the Museum Angewandte Kunst. The Tri:angular Design Challenge starts at 12.00 sharp. Please be punctual! Our tutors are looking forward to get in touch with you and so that you can present your first results to them. Of course, you will also have the opportunity to strike up a conversation with 'Unlimited' and enjoy your lunch.

Monday, 9. November, 9.30 – 13.00
Braun Office | Kronberg

We'll meet at 9.30 in front of the Braun Headquarters (Frankfurter Straße 235, 61476 Kronberg, Ts) Road. Take the S4 S-Bahn towards Kronberg (Taunus) station. Then take bus number 263 (direction: Schloss Friedrichshof) and get off at the bus stop Kronberg Hotel and Headquarters of Kronberg Academy, entrance/ other stops. The S-Bahn runs every 30 minutes. The journey takes about 20 minutes. Get off at Kronberg Süd. It's only a 2–3 minute walk to the Lederbach.

Braun Collection

We'll get a guided tour through the be Braun Collection in Kronberg led by the Braun designers, Braun Collection's curator Gerlinde Gruber and Braun Head of Design Julian Schmidt-Wolf.
In August 2019, the museum is located next to the Kronberg Braun campus. The collection includes the Braun's creation from a small 1921 workshop into a global company. Around 600 objects are on display in the Max Braun Design Room.

While the main, stained exhibition area puts a spotlight on about 300 to 1,000 design icons – including the famous SK 4 radio-phonograph ('Snow White's Coffin'), the T 1000 pocket radio, and the ET 66 calculator – there is a chance to go on a shopping tour in the company's Braun Archive. This eccentric memory of the brand contains around 30,000 objects, from which around 3,000 are presented in the Braun Collection – alongside historic materials spanning over nine decades of corporate history.

Braun Exhibition

Leave around 13.00. Take the S4 S-Bahn from Kronberg (Taunus) station direction Frankfurt Hbf (Hauptbahnhof) to Neu-Isenburg (Bahnhof Siegstraße 20 min). At the station Neu-Isenburg, take bus 937, 951, 957 or 959 and get off at the Neu-Isenburg Rathaus. The journey takes 30 minutes. Bus stop Neu-Isenburg Rathaus. Total time: 1 hr.

Neu-Isenburg Office Building

We'll meet at 14.00 pm at our office in Neu-Isenburg for a guided tour. Our office is located on the second floor of the building. The address is Carl-Ulrich-Straße 4, 63263 Neu-Isenburg. Afterwards, at around 3.00 pm, the Braun Design Team will give a extra short, 20th-min. Brief to the Tri:angular students. Afterwards, we'll have a short show are around our premises and also visit the design studio. The day will finish at around 5 pm.

Neu-Isenburg Office Building

We'll meet at 14.00 pm at our office in Neu-Isenburg for a guided tour. Our office is located on the second floor of the building. The address is Carl-Ulrich-Straße 4, 63263 Neu-Isenburg. Afterwards, at around 3.00 pm, the Braun Design Team will give a extra short, 20th-min. Brief to the Tri:angular students. Afterwards, we'll have a short show are around our premises and also visit the design studio. The day will finish at around 5 pm.

Tuesday, 10. November, 9.00 – 12.00
Mathildenhöhe | Darmstadt

Leave around 13.00. Take the S4 S-Bahn from Kronberg (Taunus) station direction Frankfurt Hbf (Hauptbahnhof) to Neu-Isenburg Bahnhof (approx. 20 min). At the station Neu-Isenburg, take bus 937, 951, 957 or 959 and get off at the Neu-Isenburg Rathaus. The journey takes 30 minutes. Bus stop Neu-Isenburg Rathaus. Total time: 1 hr.

The Mathildenhöhe in Darmstadt is considered the birthplace of modern industrial design. Here, the artists' colony founded in 1899 combined traditional craftsmanship with modern technology and developed a design language tailored to the demands of industrial mass production. The artists' colony's unique artist house (Künstlerkolonie) with its studios, exhibition buildings, workshops, furniture, and interior details were designed as a complete work of art and a manifesto of modern living. Joseph Maria Olbrich and Peter Behrens were the colony's most important architects, leaving their mark on the city's cityscape. Today, the Künstlerkolonie is a UNESCO site, during the nineteenth 1901 World Exhibition (Ger. Weltausstellung) in Darmstadt. The Tri:angular students will be visiting the Mathildenhöhe, the birthplace of modern mass production to an international audience, being the headquarters of the Darmstadt University of Design.

The tour of the Mathildenhöhe is led by **Dr. Philipp Gutbrod**, Director of the Institute for Industrial Culture and Official for the City of Darmstadt – alongside his team.

Outdoor UNESCO World Heritage Site (45 min): An exploration of the buildings and sites scattered on the core theme „**Birthplace of Modern Design**".

A Stop-Break of approx. 45 min is planned at the nearest Ice Bowl Design Center 2020 featuring the exclusive „Mathildenhöhe" planet, setting the stage for a discussion on a modern „New Frankfurt Kitchen".

Ice Bowl Kindlofstraße 13 | Darmstadt: A close-up look at selected maintenance highlights by design pioneer Peter Behrens.

Tuesday, 10. November, 12.00 – 14.30
City Center Break | Darmstadt

Mathildenhöhe

After visiting the Mathildenhöhe, you can spend your lunch break in Darmstadt city centre. It's only about a 20-minute walk to the city centre. There, you'll find plenty of sweet food spots to enjoy a little ice cream and a drink. Of course, you can also do a bit of shopping.

Marketplace

Castle

Please note that we will then meet again at 14.30 at the University, just behind the „Fünffingerturm (Five Finger-Tower)".

Tuesday, 10. November, 14.30 – 17.00
University of Applied Science Darmstadt

The Evolution of Industrial Design at h_da

The roots of industrial design at Darmstadt University of Applied Sciences (h_da) go back to 1953, the year the founders of the Modern Movement in architecture, the „Architekturschule" emerged in 1948, gradually shifting its focus towards industrial design. Between 1953 and 1958, the Department of Architecture and Industrial Design was subject one, merging into the newly founded Fb Darmstadt as a dedicated department in 1971.

In terms of content, the degree program unites two practical movements: Modern Architecture (which combined the fields of architecture, furniture and the applied arts) and the Bauhaus (founded in 1919 as the Staatliches Bauhaus in Weimar, Germany). They adopted the scientifically grounded „Ulm Model" – a design methodology that emphasized the systematic development of products, rather than their intuitive artistic instinct.

The Darmstadt identity is defined by the synthesis of design, philosophy and technical expertise. Benefiting from its proximity to the Rhine-Main area, the city's engineering, mechanical engineering and precision technology were integrated directly into practical education and research. Today, its tools and methods are dedicated to the challenges of digital transformation, digitalization, and user-centered innovation processes.

As well as a tour through the University, an exhibition will be part of the Tri:angular Design Challenge programme. Named 'Fundamentals', showcases products of the Darmstadt School of Design, from the 1950s to the present day.

The tour back to the office leaves at 17.00 sharp in front of the university building. Please be there on time, we estimated arrival time Neu-Isenburg is 5:45 PM.

happy end
