Email: *Email*	francesco.lamperti@mail.polin	Docente promotore: *Promoter*	Scullica Francesco

Racconta la tua esperienza di scambio / Tell us about your exchange experience:

My experience in Latvia, Riga, was great, impossible to describe with words.
The city is beatiful and full of things to do, i met a lot of new interesting and funny people that enriched my experience despite the pandemic situation and i would suggest Riga to everyone for spending the erasmus semester. We often tend to underestimate the beauty of eastern countries but i fell in love with their culture and their incredible landscapes, way different from the italian ones.
From the academic point of view instead i have to say that i'm a bit disappointed, especially by the professors of the Space design course, which is the most important. We, as foreign students, were often advised late on everything, they were always speaking in latvian during the lessons even though the course had to be in english for us and their organization for the consultations and other practical matters were awful.
Despite of these problems i didn't have any issue to finish my semester, also because the amount of work to do is really much lighter than the one at the Politecnico.
