Digital and Interaction Design

INTRODUCTION

In the Master's degree programme, you can customise your study plan. You can indicate your preferences for the Final Synthesis Studio (if more than one section is planned and for the the elective courses.

The elective courses are part of the mandatory teaching programme, and are included in the study plan in order to achieve the CFUs required to graduate. With the elective courses, you can personalise your pathway and explore topics of interest to you in greater depth.

Free-choice courses are offered in the 1st and/or 2nd year for all Master's degree courses. When submitting your study plan, you will have to indicate, in order of preference, 5 courses.

Following your allocation, the School sets aside a period of one week in which you can request a change to the course of your choice in which you have been allocated: to do this, you must send a mail under "optional courses - workshops".

The announcement of available places for change requests is published on the Scuola del Design website once the allocation process has been completed.
