

WORKSHOPS CALENDAR

1ST – 2ND YEAR LAUREA MAGISTRALE (eq to MSc)

All Master's degree students have a mandatory workshop in their Study Plan (with the exception of Design & Engineering ones, that can choose it as an elective course). The table shows the name and calendar of these didactic activities and if it's needed to answer a call to be assigned to a workshop section.

During the weeks before the Workshop, the Faculty may set up a preliminary meeting with the students.

It is necessary to register for the relevant exam before the end of the WS: registrations open in the middle of the week of the Workshop.

Students not attending the Workshop this year, will have to pass it next academic year.
