

WORKSHOP CALENDAR

3RD YEAR LAUREA (eq. to BSc)

All 3rd year students have an internship activity in their Study Plan. The table shows the name and calendar of these didactic activities and if it's needed to answer a call to be assigned to a workshop section.

During the weeks before the Workshop, the Faculty may set up a preliminary meeting with the students.

It is NOT necessary to register for any exam session, but students are asked to answer a survey to express their opinion on the didactics' quality.

Students not attending the Workshop this year, will have to pass it next academic year or can ask the Internship Service to substitute it with a curricular compulsory internship (to request the substitution, send an email through the School's website: <https://www.design.polimi.it/en/send-an-email>, section Compulsory Internship (national and international)
