

# OPEN CALL FOR EUROPE – GLOBAL GATEWAY

**DEADLINE:** 31st March 2022

**ARTISTIC FIELDS:** Installation, Public Art, Performance, Education, Sculpture, Visual Arts, Digital

**AGE:** Older than 18

**REWARDS:** Financial compensation (for the production and a paid fee); Exhibition with European Commission in one of 7 countries (France, Germany, Spain, Romania, Estonia, Denmark, Italy)

**DESCRIPTION:** Exhibit your artwork across Europe. The European Union has an open call for one of their projects this summer. The project covers climate change, digital transformation, COVID, education, and human rights topics through art installations. Installations will be exhibited in public spaces in different cities (France, Germany, Spain, Romania, Estonia, Denmark, Italy) in summer 2022. The installation should have a physical element as well as the possibility of a digital online element, as an addition to the physical concept.

**EXHIBITION COUNTRIES:** France, Germany, Spain, Romania, Estonia, Denmark, Italy.

**CONCEPT:** The world is interconnected. Climate change, democracy, human rights, digitalization, and COVID pandemic issues see no borders. No country can solve the challenges of our times alone. We share one world, and our future is shared. Therefore, we need our friends outside the EU as much as they need us to work together and improve this world.

Through these art projects, we want to trigger our audience to consider:

- Climate change
- Digital Transformation
- COVID
- Education
