In order to participate in the exam sessions of the courses included in the Study Plan, it is essential to register for the exam and on that occasion fill in the course evaluation questionnaire.

In order to have the grade registered in the academic career, for students who do not come from a study course of Politecnico di Milano, it is necessary to provide for the recognition at the Student Secretariat (<https://www.polimi.it/studenti-iscritti/contatti/sportelli-e-uffici-open-to-students/>).

The validation of the grade or the recognition of attendance for a single course, in the case of a subsequent enrolment in a Master's Degree course, is possible based on the didactic offer of the Admission Course: attendance of single courses does not guarantee admission to the Master's Degree Courses of the School of Design but enriches the candidate's curriculum.

It is advisable to view the pre-requisites for admission to Master's Degree Courses (English certification and weighted average of the three-year program of bachelor).
