Once the course is included in the Study Plan, in order to take the exam, it is essential to timely register for the exam session and fill in the course evaluation questionnaire.

In the case the student is subsequently enrolled in a Master's Degree course, the single course's grade or its attendance will be recognized in the student's study plan, according to the didactic offer of the Programme of Admission: attendance of single courses does not guarantee admission to the Master's Degree Courses of the School of Design but enriches the candidate's resume.

It is advisable to review the pre-requisites for admission to Master's Degree Courses (English certification and weighted average of a three-year bachelor program).
