Studying at the School of Design
Master of Sciences (MSc)

The MSc programme is awarded after two years of study (120 ECTS) and aims to provide advanced training in more highly specialized areas. The credit system ECTS represent the workload of the academic year of study.

CREDIT SYSTEM

Each subject is assigned a number of credits which the student obtains when he passes the final examination. The CFU fully coincide with ECTS credits.

1 CFU = 25 hours of workload

Includes lectures and other forms of instruction like: exercises, assignments and independent work.
Double degree students from Tsinghua University will be able to choose among the sections.

**Please notice:** In order to obtain your MSc Degree in Politecnico di Milano, you will need to achieve 60 CFU in 1 year of study.

The remaining 60 CFU will be validated with the credits from the courses you've done previously at Tsinghua and should correspond to 18 credits.

In the following slides you’ll find the courses you’ll need to attend in order to obtain the MSc Degree from Politecnico di Milano.
COURSE TYPE

1 DESIGN STUDIO (laboratorio)
   Project based course
   Students are divided in sections

2 MONODISCIPLINARY & INTEGRATED COURSES
   Project and Theory course

3 WORKSHOP & DESIGN SEMINAR

5 FINAL EXAMINATION - THESIS
   Individual Thesis developed
   With the guidance of a Prof. from the School of Design
EXAMS and GRADES

Exams are graded using a scale of 30, where 18 is the minimum passing grade and 30 cum laude the highest.

Students have the possibility to refuse the final mark and present again the exam in a next exam session (with exception of the design studios).

The final grade in a course can be based either on the final examination only or it can be based on a combination of the final examination and course work. The grade requirements are indicated in the course details online and explained at the beginning of the course.

<18  Not Passed  ≥18  Passed

<18  Not Passed  ≥18  Passed
Each MSc Programme is divided in sections:

The sections share the same educational objectives, they may differ from each other offering different topics in the Design Studios on which the student will be called to carry out project activities.

For some programs the main difference among the sections is defined by the Design Studios namely:
- Laboratorio (Design Studio)
- Workshop

Other programs are divided into sections according to the language of teaching:
